

PDP-18

Telecom Power Distribution Panel

- More power in less space
- 1,000 amp distribution
- Up to 18 breakers
- High density wall or rack mount style panel
- Multiple breaker configurations
- Black powder coat finish

C&C Power's PDP-18 is a wall or rack mount style breaker panel that has a total system capacity of 1,000 amps. The panel can accommodate 15 breakers up to 100 amps each and 3 breakers up to 300 amps each.

Other standard features include two hole lug terminations with 3/8-16 taps and 1" spacing for up to 250 MCM lugs on all 2 pole breaker outputs and 10-32 taps and 5/8" spacing for up to #2 AWG lug on all single pole breaker outputs.

PDP-18 Configurations			
C&C Model #	System Volts	System Amps	Busbar Layout
90601-24	+24 VDC	1,000 Amps	Single Bus
90601-48	-48 VDC	1,000 Amps	Single Bus
